ABOUT ME

Aspiring Data Engineer with hands-on experience in Python, SQL, and data analytics, skilled in designing and building ETL and ELT pipelines, data transformation, and data visualization. Strong understanding of data warehousing concepts and scalable data workflows.

Passionate about leveraging modern tools like Spark and cloud platforms to build efficient, reliable, and high-performance data systems.

TECHNICAL SKILLS

Languages: Python, SQL,

Big Data/Streaming: Apache Spark, Hadoop, Hive

Cloud Platforms: AWS Redshift, GCP

Database/Storage: PostgreSQL, MongoDB, Cassandra, Snowflake

Data Engineering: ETL & ELT Pipelines, Data Processing & Transformation, Data Preprocessing, Data Modeling, Exploratory Data Analysis

Tools/Workflow: Git, GitHub, Notion, dbt

Data Visualization: Power BI, Tableau

EXPERIENCE

Vcodez -Data Analytics Intern

- Performed customer churn analysis using Python (Pandas, NumPy) and SQL to identify key factors influencing customer retention.
 - Cleaned and preprocessed raw data, conducted exploratory data analysis (EDA), and extracted actionable business insights.
 - Created interactive dashboards using Power BI / Tableau to visualize churn trends and support data-driven decision making.
-

PROJECTS

Uber Data ETL Pipeline

Tech Stack: Python, PostgreSQL, ETL, Data Modeling

GitHub: <https://github.com/kanimozhijayakumar/uber-etl-data-pipeline>

- Designed and implemented an end-to-end ETL pipeline for processing Uber trip data.
 - Performed data extraction, transformation, and loading using Python and PostgreSQL.
 - Developed structured data models to enable efficient querying and analytical reporting.
-

SQL (Self-Learning & Practice)

GitHub: <https://github.com/kanimozhijayakumar/sql>

- Developed strong SQL proficiency by practicing DDL, DML, and advanced query techniques.
- Wrote queries using joins (INNER, LEFT), aggregations (GROUP BY), and window functions.
- Organized and documented SQL scripts to improve query optimization and problem-solving skills.

EDUCATION

B.E in Computer Science & Engineering

Anand Institute of Higher Technology (Anna University)

2022 – 2026

GPA: 8.2

ACHIEVEMENTS

- PCEP - Certified Entry-Level Python Programme
- Python on for Data Science Issued by IBM
- Certificate of Appreciation - TNWISE 2025 Hackathon
- Deloitte Australia Data Analytics
